

HELP...
PLEASE HELP!

Our daughter has been SEVERELY injured by the installation of smart meters. She is only one of thousands of people in the U.S. who have experienced this pain and suffering, due to the radiation in the smart meters. As a result, she and countless others experience severe pain with exposure to EMFs and RFs. They cannot be in the presence of wi-fi, satellite tv or internet, cell towers or use their cell phones, fluorescent lighting, etc. She has been suffering over three years with severe pain in her chest, head, and feels currents of radiation in her throat and torso, all day and night. She is kept from sleeping for 4 to 6 hours/night as a result of the severe pain. This started in the summer of 2010. It is now over three years later and she is still suffering daily and cannot find a safe place—painfree – to live, far enough away from RF sources. She is a psychotherapist. She had to close down her medical practice over three years ago and has no way of earning a living. How can we let this continue?

The utility companies financially benefit at the cost of so much human suffering. Smart meters must be permanently done away with, everywhere. We need your help.

WE DESPERATELY NEED YOUR HELP!

I am writing this with tears in my eyes, seeing the suffering that she and others are experiencing.
